All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

When we get the court house square completed, we should have a band to furnish music for the promenaders.

It is a good idea to secure graduates of the cabinet to defend the trusts. They know the weakest points of the adversary.

Judging from the zeal manifested by The Ocala Banner in defending the poor, suffering millionaires of the land, there must be something in it.

The pupils in two of Chicago's schools are on a strike. In the good old days the teacher used to do the striking, and then it was pitiful to see some of the kids try to arbitrate.

At the meeting of the National Association of Manufacturers, held in Atlanta, D. M. Parry was re-elected president. Parry is a most bitter enemy of all kinds of unions except the manufacturers.

The running of railway trains on Sunday is as noisy a bit of Sabbath breaking as any, yet the Sunday train often conveys the minister to the place where he is called to conduct divine worship.

While the good people of the Congressional missionaries are removing the taint from the John D. Rockefeller money, many of the poor heathens are going about without a thing to cover their nakedness, longing for Sicilian skirts and peg-leg pants.

It is a step in the right direction to have the Southern Presbyterians fall in line with their Baptist and Methodist brethren, and have one church both North and South and the religion Christ as the basis for all. It looks like a step toward a universal brotherhood.

The Rev. Sam Jones is holding big revival meetings at Cartersville, Ga., and the railroads are running low rate excursions. But on Sundays the rate is the lowest, so that more people can go, notwithstanding the railroad men have to work on that day to carry the people.

Several years ago, when a carload of Florida fruits and vegetables was sent through the North, so the people of that section could see what was grown here, it was considered a very good advertisement. And we believe that car was the means of bringing many people to this State.

The policy of President Roosevelt and the Panama commission, to buy supplies in foreign markets, shows the disregard of American products held by such people. We can compete with foreign manufacturers when given a fair show, but when the "government is against us," there is not much of an opportunity left.

"If those who are at work to disorganize the schools of the State would only take the time to inquire into the matter," said a gentleman to The Sun the other day, "they might learn a little about what they are. The idea of going to work and altering our system of education, which has been in practice for years, cannot help but be a detriment."

DISGRACE TO THE STATE.

The report of the investigating committee, appointed to look up the condition of affairs at the Asylum for the Insane at Chattahoochee, have brought to light a state of affairs that seems almost too horrible to be true. Those in charge have proven themselves to be of the most depraved nature and have allowed the most degrading specimens of humanity to remain at the institution who were not insane or entitled to alms even from the State. Where there has been a few of the really deserving ones sent there, they have been subjected to the most inhuman treatment at the hands of the vile gang that has been maintained there, and all the efforts to rid the place of their presence has availed nothing in that line.

Money that has been appropriated for the asylum has been used for other purposes, and if the half of what is said is true, there are a number that should be severely punished for their actions.

A FLORIDA PAPER.

The resources of the State of Florida are many, and it requires money to develop many of them, although the return for the labor and money will be three or four-fold. The newspapers of the State are doing much to advance these interests, but The Jacksonville Times-Union is a host in this direction. There is more news of interest to the trucker and farmer in each issue than you can find in any of the agricultural papers, and it is always doing something to promote the interests of the State.

While we think that all should support their local paper, as it always strives to build up home interests, and a healthy local paper is a good indication of a healthy town, yet The Times-Union should be in the hands of all who are interested in the advancement of Florida.

CONSTITUTIONAL CONVENTION

The joint resolution calling a Constitutional Convention—introduced in the Senate by Mr. Newlan and in the House by Mr. Dorman—should pass, as a matter of economy, if nothing more.

The last election carried an expense of \$16,000 for printing advertisements of the amendments, and there was a deficiency of \$12,500—nearly enough to pay the expense of a convention absolutely thrown away, as only one amendment carried.

The Legislature could not do better than submit the question to the people and let them decide on it.—Lake City Index.

The celebration of Cuban independence, which is being celebrated by the Queen of the Antilles, will no doubt be the event in the lives of that people. After living so many years under the tyrannical rule of Spain, never knowing the meaning of the word freedom, they will evidently make things exceedingly lively, and Cuba Libre will ring out over the island. May they live to enjoy many more anniversaries.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

The improvements in the court house grounds now being made are causing much favorable comment. A gentleman who takes a lively interest in the welfare of Gainesville pointed to the men at work there yesterday, and remarked: "That is the best thing done since the court house was built. We will get there yet, and Gainesville will be all right." Others are of the same opinion.

Two Killed by Live Wires.

Newport News, May 19.—Earl Gilchrist, a telephone lineman, and Ashly Harris were accidentally electrocuted today. Gilchrist was working on a pole when wires in his hand came in contact with a live wire and he swung from the pole dead. Harris was walking on Huntington avenue, when he picked the end of a broken electric wire, being instantly killed. Gilchrist was a Lynchburg man. Harris was a son of former State Senator Harris, of Americus, Ga. Both men were unmarried.

Wool Manufacturers Bankrupts.

Philadelphia, May 19.—Albert Herbst & Co., wool manufacturers of this city, have been adjudged involuntary bankrupts, and George E. Schlegelmilch was appointed receiver for the firm by Judge Holland in the United States district court. The petition, filed by the creditors, represents an indebtedness of over \$50,000. Counsel for the firms say that no statement of the assets and liabilities can be given out for several days.

Editor of Booklover's Dead.

Philadelphia, May 19.—Dr. Frederick W. Spiers, editor of Booklover's magazine, is dead at his home in Lansdowne, suburb of this city, after a short illness. Dr. Spiers was educational director of Booklover's library and organized the Booklover's library in England. He was well known as a university extension lecturer. Dr. Spiers was 37 years of age.

A Serious Mistake.

It is a serious thing to neglect your heart.

The moment you detect any weakness or irregularity, such as short breath after exercise, palpitation, fluttering, weak or hungry spells, pain in breast, side or shoulder, or uneasiness when lying on left side, you should take Dr. Miles' Heart Cure; it rarely ever fails to relieve all these symptoms.

If not promptly restored, chronic heart disease soon develops, and then it only remains for some sudden strain to completely exhaust the heart.

Thousands of hopeless cases have been cured, and if you do not try it, it will be the greatest mistake of your life.

"When I began taking Dr. Miles' Remedies I was in a very bad condition. I had stomach trouble, with severe distress after eating. My heart hurt me, and I had shortness of breath, palpitation. My pulse was irregular, and my feet, ankles and hands were swollen. Every month at regular periods I had severe pain. I wrote Dr. Miles' Medical Co., and they advised me to take Dr. Miles' Restorative Nervine and Heart Cure. I soon noticed an improvement, and I continued the medicine until I was completely cured. I feel like a different person. In fact I have not felt so well for 20 years."
